

Using the Observer App — Quick Start

Log what you see · check it against the Wisconsin election law · send it to the team

FIRST TIME ON YOUR PHONE (SETUP TAB)

- 1 **Open the link** your team lead sent, then tap **Add to Home Screen** so it opens like an app.
- 2 Go to the **Setup** tab (bottom right). Pick your **role**: **Observer** (logs observations) or **Drafter** (also writes complaints).
- 3 Enter the **Team code** (unlocks the rules-check). Drafters also enter the **Drafter code**. Fill in your name and organization.

IF YOU'RE AN OBSERVER

- A Not sure?** On the **Log** tab, type what you're seeing in **"Check the laws"** and tap **Check**. It flags whether a rule may be involved and what to capture. It's advice only — it never files anything.
- B Tap + Add incident.** Record the facts: time, table/ward, exactly what you saw (actions, not conclusions), who (name + wristband color), witnesses, objection, evidence. Tap **Save**.
- C Tap Submit to team** to send your new observations to the shared record. Do this through the day and before you leave.

IF YOU'RE A DRAFTER

- A Log or import** the observations you're drafting from (same steps as an observer).
- B Go to the Draft tab.** Choose **Observer-filed** or **Attorney-filed**, name the respondent, and note the relief.
- C Check the incidents to include** and tap **⚡ Draft complaint**. Review the draft, then **Copy** or **Download** it.

Every citation is marked **[DIRECT / INFERRED / NOT FOUND]** — verify each against the statute before filing.

GOOD TO KNOW

- **Your work is saved on your phone automatically.** Closing the app or locking the screen won't lose it.
- **Submitting and drafting need signal;** logging does not — you can keep logging in a dead zone and submit once you're back online.
- **First check or draft after a quiet spell can take 30–60 seconds** to wake up, then it's quick. Nothing's broken.
- **Export notes (JSON)** on the Log tab is a personal backup — handy to hand your full record to the team lead directly.
- The rules-check assessment is coaching only and is **never saved** into your record. When in doubt, log it.

Bottom tabs: **Log** (check & record), **Draft** (drafters only), **Rules** (EL 4 quick reference), **Setup** (your role, codes, and server status). Trouble? Use **Setup** → **Check server status**, or contact your team lead.
